

RawTile

The diagram illustrates a workflow for retrieving raw tiles. At the top, three overlapping light purple rectangles represent 'RawTile' objects. An upward-pointing arrow connects a central box to the bottom-most 'RawTile'. This central box is labeled 'Async tile provider: Get raw tiles'. Below this box, a vertical line leads to a rounded rectangle labeled 'Concurrent queue: Pop all elements'. The entire process is set against a light gray background.

Async tile provider: Get raw tiles

Concurrent queue:
Pop all elements
